

Key vocabulary:

Twist
Stretch
Metal
Natural
Man made
Solid
suitable

I will investigate:

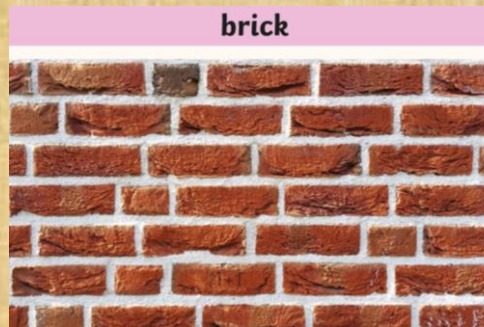

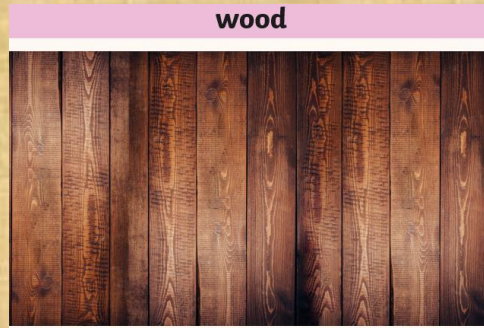

- how some materials can be used for different things
- how solid shapes can be changed through different processes
- why some materials are suitable and some are not

Science Knowledge Organiser – Year 2 Using Everyday Materials

I can :

- identify different materials
- compare different materials
- say which materials are most suitable
- I can name several properties of different materials
- I can predict how a material may change
- I can observe and record changes to the materials in different forms
- I can evaluate why materials are best for different purposes

I can explore which materials would be best to build the house of the Three Little Pigs

We might:
-explore facts about different inventors

plastic 

hard 

smooth 

bumpy 

opaque 

brittle 

fabric 

brick
